They now live in a renovated schoolhouse in the beautiful Beaver Valley.

PANELIST: ANDREW MCCAMMON

Andrew has been the Executive Director of the Ontario Headwaters Institute since 2009, guiding it from a focus on headwaters to promoting watershed security - healthy and resilient watersheds that protect regional ecological integrity, social wellbeing, and economic vitality.

Recent efforts on watershed security include championing the integration of land use and watershed planning at the municipal level and proposing the significant expansion of Greenbelt-style core and corridor special planning areas to counter the massive impact of land conversion now taking place across the province.
